Reels

THE QUIK SPRAY DIFFERENCE:

- ✓ 30 YEARS EXPERIENCE
- ✓ SAVE TIME & MONEY
- ✓ REDUCE FRUSTRATION
- ✓ IMPROVE SAFETY
- ✓ AUSTRALIAN MADE
- ✓ REMOTE TECHNOLOGY
- ✓ SUPA-SLIP HOSE
- ✓ HEAVY DUTY
- ✓ CUSTOMER CARE

PRODUCT OVERVIEW

Small in size, big on performance. With the smallest footprint in the Quik Spray range, the QR reel is designed for use on quad bikes and ATV's, or any spray system that has limited space. The QR reel is a versatile "reel only" option that is perfect for anyone looking to upgrade their manual reel to a powered one.

Complete with remote controlled reel retraction, the 12-volt motor is powerful enough to retract up to 100m of Supa-Slip® hose, at the push of a button. It may be small, but it has all the power of a heavy-duty reel and isn't shy of hard work.

The Easy-Walk Spool System is the latest in advanced hose reel management, making handling a breeze when walking out long lengths of hose.

FEATURES

DURABLE AND LONG-LASTING

The powder-coated aluminium framework gives you maximum durability in rough conditions. Comes with slip-on capability and 4 bolt-down points for easy fitment.

MANAGE MORE WEEDS, SAVING TIME & MONEY

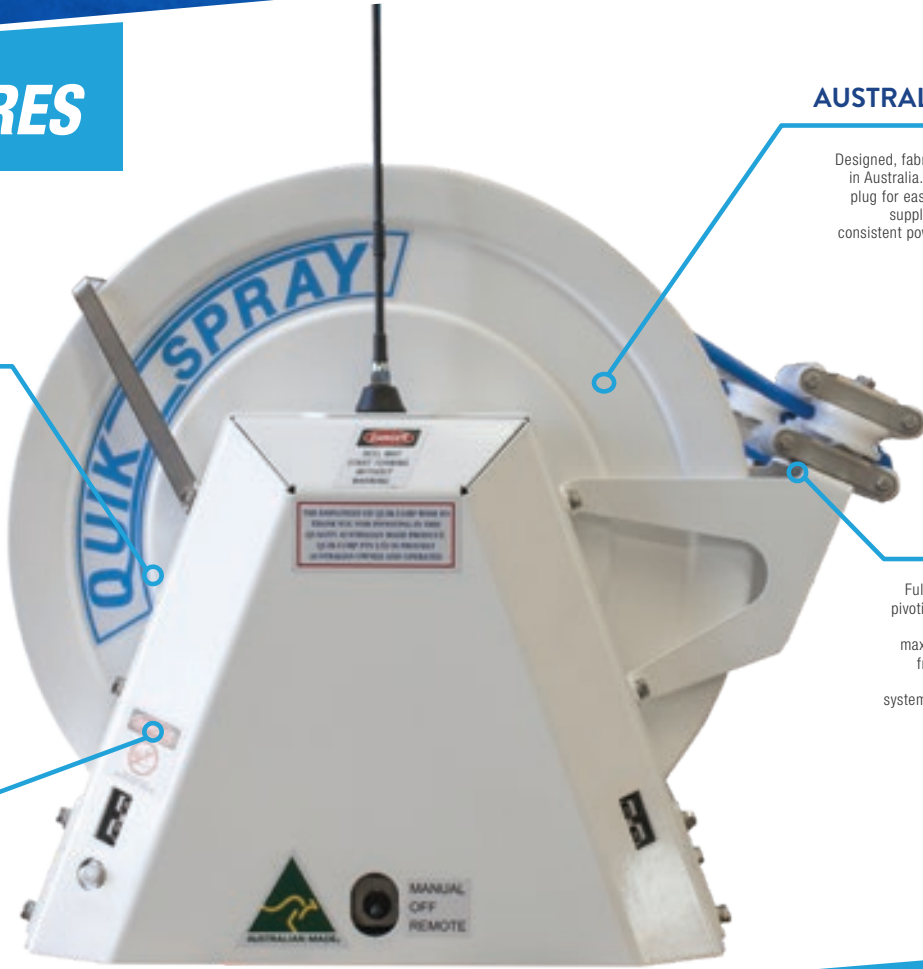

The powerful 12-volt 150-watt electric motor ensures a snag-free operation in and around trees. You'll cover twice as much area in the same amount of time, without any extra effort. Motor can handle up to 60KG force against the retraction. How's that for tough?! Our competition's reels are only rated to 16KG

PROUDLY AUSTRALIAN MADE

Designed, fabricated and assembled in Australia. Comes with Anderson plug for easy connection to power supply, ensuring you have a consistent power source to the reel.

MAXIMUM FLEXIBILITY

Fully reversible mounting option – pivoting couplings allows hose to be reeled from either direction for maximum flexibility. The adjustable friction brake prevents over run. Much like superior fishing reel systems, our innovative brake system prevents over run on the reel.

SPECIFICATIONS

QR50 / QR100

	QR50 / QR100	
MOTOR	CLUTCH DRIVEN BY 12 VOLT, 90 DEGREE, 60 RPM, 13 NM, 150-WATT, 1.50 RATIO MOTOR	
RADIO	915 MHZ REMOTE CONTROL RADIO GEAR TO REWIND THE HOSE VIA A HAND-HELD TRANSMITTER	
HOSE	50M OF SUPA-SLIP® 3/8" ID HOSE CAPACITY	100M OF SUPA-SLIP® 3/8" ID HOSE CAPACITY

WARRANTY	12 MONTH WARRANTY ON REEL	5 YEAR WARRANTY ON RADIO RECEIVER
OPTIONAL ACCESORIES	TURBO-400 SPRAY APPLICATOR AERIAL SPRING	

WHY CHOOSE US?

QUIK SPRAY® INVENTED THE REMOTE CONTROL RETRACTABLE HOSE REEL OVER 30 YEARS AGO.

We guarantee optimum performance and reliability of our spray units through continuous improvement and 30 years' experience serving the agricultural industry.

HONDA MOTORS - GREEN & GOLD APPROVED

There isn't a better name for small engines than Honda. That's why we've partnered with Honda for over 30 years to specifically match our machines with the best motors in the business. The Honda motors pack a punch, and are designed to work hard from day one, so we've made sure it's the right Honda engine for each Quik Spray model.

BERTOLINI PUMPS

20 years of partnership with Bertolini Pumps has allowed us to use of the highest quality pumps on the market. This guarantees optimum performance from your spray unit, first time, every time.

HEAVY DUTY COMPONENTS

When it comes to quality, we don't cut corners. Our equipment is all Australian made, right here in Warana, QLD. The framework is designed to withstand harsh treatment for heavy duty spraying applications in the roughest, hottest, driest locations on earth. The heavy-duty pressed steel reels have rounded edges for a bullet-proof and operator-friendly design.

SUPA-SLIP® HOSE

Quik Spray Supa-Slip® hose is a high-grade Nylon, which is a polyamide bio plastic derived from vegetable oil, offering advanced performance and strength, as opposed to lower grade Nylons commonly used. The Nylon 11 hose is UV and chemical resistant and highly resistant to abrasion. The light-weight Supa-Slip® hose, used only on Quik Spray systems, allows the hose to glide easily around trees, rocks, posts - in fact, any obstacle- without it catching or kinking.

RADIO REMOTE TECHNOLOGY

Our Quik Spray units are radio controlled by a hand-held transmitter. Our advanced radio technology gives you superior, independent radio range, without interference between operators. Over 30 years in the business means we have weeded out the inferior technologies used by others. Beware of out-dated technology. Comes with 5-year full comprehensive warranty on the RCM module (radio transmitters and radio control box).

CUSTOMER CARE

Exceptional products and customer service, is what we do at Quik Spray. We involve our best people each step of the way. With a dedicated warehouse and service centre, everything you need is only a phone call away. With over 30 years' experience we provide full technical customer service support when you need it.
